MOBILE AND STURDY.

Crosscut, Mitre and Table saws from Metabo offer the user the benefit of having three machines in one. The KGT 300 allows the user to crosscut timbers to length at 90° up to 120 mm in depth, then mitre all the way to 45° and cut up to 66 mm in depth. In table saw mode the machine is ideally suited to ripping panels up to

55 mm in depth, e.g. when cutting panels to size for laminate flooring. The KGT 501 is a larger version of this machine with a maintenance free induction motor, ideal for large timbers and on site use. Professional, precise and robust. **Metabo – the professionals brand**.

315 mm saw blade Housing and holder allow the use of a 315 mm blade. This enables the clean cutting of timbres up to a height of 120 mm.

Saw head can be tilted Bevel up to 48° left and 45° right.

Due to the special position of the motor, ideal cutting heights are possible, both for cross-cutting and table saw operation. The motor is no longer in the way.

EQUIPMENT FEATURES

- Changeover from crosscut to table operation in split seconds
- Powerful universal motor, stops in 5.5 seconds
- Low own weight for easy transport
- Double mitre cuts up to 45° due to inclinable saw head and integrated round table
- Saw head can be beveled on both sides
- Sturdy and precise aluminium cast construction
- Integrated holder grooves for attaching table length extension without tools
- Sturdy parallel guide/ripping fence

- Combined mounting saws with three functions: Crosscut saw, mitre saw and table saw
- Changeover from crosscut to table operation in split seconds
- Best cutting quality due to the torsion-free design
- Absolutely collision-free work with every angle setting
- Induction motor quiet and maintenance-free, stops in 5.5 seconds
- Electronic motor brake
- Scale for infinitely variable angle adjustment and fine-adjustable snap-lock at 90° and 45°
- Sturdy and precise aluminium cast construction
- Stand fixed to the machine: foldable legs for problem-free work on the ground
- Sturdy parallel guide/ripping fence

	Machine stand KSU 400 Machine stand and table extension in one sturdy construction Universal end profile makes	0910066110

Machine stand and table extension in one sturdy construction
 Universal end profile makes it suitable for all the conventional crosscut saws of well-known manufacturers
 Sturdy legs with height adjustment
 Extensive range of accessories
 Max. total length 400 cm
 Max. weight load in central part 250 kg
 Weight: 25 kg
 For accessories for the machine stand KSU 400, see page 243

Work clamps

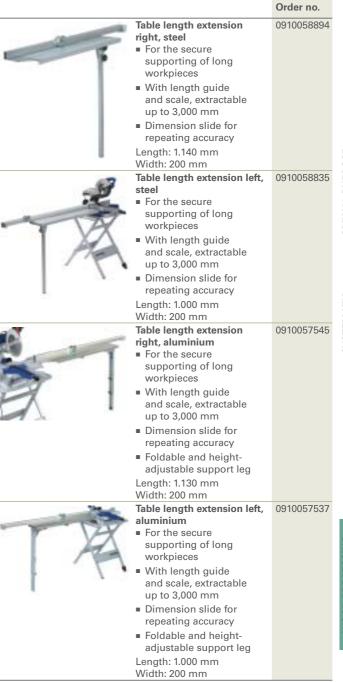

Machine stand

	Order no.
Work clamp ■ For the secure clamping of smaller workpieces, plastic or aluminium profiles Suitable for: KGS 255, KGS 303, KGS 305, KGT 300, KGT 501, KS 210 C, KS 210 Lasercut KGT 501 from model year 2003 on	0910057553

ACCESSORIES FOR KGT 300

Table length extensions

	Order no.
Table length extension right, steel For the secure supporting of long workpieces With length guide and scale, up to 1,600 mm Dimension slide for repeating accuracy Length: 1.140 mm Width: 200 mm	0910058886
Table length extension left, steel For the secure supporting of long workpieces With length guide and scale, up to 1,600 mm Dimension slide for repeating accuracy Length: 1.000 mm Width: 200 mm	0910058827

Supplementary stops

		Order no.
	Supplementary stop For the safe and tear-free processing of small workpieces and strips Also particularly suitable for tall workpieces Suitable for: KGS 255, KGS 303, KGT 300	091005983
Suction ada	pter	

		Order no.
44 mm diameter-Ø 35 mm bore-Ø	suction adapter Suitable for: KGS 255, KGS 301, KGS 303, KGS 305, KGT 300	0910059955

ACCESSORIES FOR KGT 501

Table length extensions Order no. Table length extension 0910053213 ■ For the secure supporting of long workpieces ■ With length guide and scale, extractable up to 2,800 mm ■ With extension profile and 2 dimension slides for repeating accuracy ■ Can be used left and right for cutting to length Length: 1.000 mm Width: 200 mm

Sliding table

		Order no.
	Sliding table Enables exact cuts, even on larger workpieces Sliding table on ball bearings Cross-cut guide for cutting to length up to 1,000 mm, with dimension slide, magnifier and adjustable aluminium scale	0910053205
	■ Easy to mount and dismount Cutting width 90°/45°: 650 mm/890 mm Table size: 350 x 290 mm Overall length: 1.170 mm Base weight: 23 kg	
1	Guide length extension for sliding tables	0910055100

 For use in the cross-cut guide of the sliding table
 Enables the cutting

to length of workpieces

of up to 2,000 mm

Adjustable scale made

of aluminium

Mitre guides

	Order no.
Mitre guide For precise cross cuts and angular cuts With workpiece bearing made of aluminium Infinitely variable, both sides adjustable, 90°-45° Suitable for: KGT 500, KGT 501	0910009028

Positioning laser

	Order no.
Positioning laser For a perfect preview of the sawing cut The workpiece can be positioned quickly and securely for cutting No more test cuts Battery-powered line laser Suitable for: KGS 301, KGS 331, KGT 500, KGT 501	0910040553

Chip and dust extraction units

Chip and dust extraction unit

For a cleaner work environment and an unobstructed view of the workpiece you want to cut

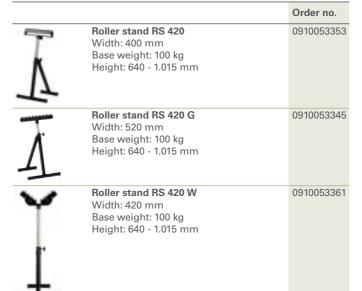

Order no. 0910009249

For connection to a chip and dust extraction unit

Extraction nozzle Ø: 100 mm Suitable for: KGT 500, KGT 501

Roller stands

- For supporting long workpieces when sawing, moulding/routing, planing and drilling
- Sturdy, height-adjustable and foldable

- Top cutting results thanks to teeth ground on all sides and high accuracy of flatness and concentric running
- Tungsten carbide blades: long tool life thanks to use of unmixed carbide
- Can be reground repeatedly
- Made in Germany

Tungsten carbide	315 x 2,8 x 30	96	Flat tooth/ trapezoidal tooth, 5° neg.	6.28092

NO TEARS - NO EFFORT.

The basic principle is "pulling instead of pushing". Those who have had to cut long, difficult or particularly hard workpieces know that pulling is easier and cleaner than pushing. Considerably less teeth cut through

Precise workpiece

the wood, the cut can be controlled better and there are less tears. At the same time, the flush-mounted circular saw principle protects the saw blades, thus increasing their service life significantly.

e.g. UK 333

333 mm pulling length All normal laminated floors and panels can be cut in two completely by up to 45°.

Sturdy and firm side parts made of solid steel sheet.

High quality universal fence for angle settings from -90° to +90°.

Absolutely flexible Powerful universal motor and speed regulation by Metabo VC electronics for constant speed under moderate loading.

Quick conversion

Practical accessories

- easy to mount.

The UK 333 can be converted to a table saw. The universal fence becomes a parallel stop for cutting long workpieces.

Always mobile

The stand can be folded in easily. The UK 333 is therefore easy to transport and fits in every car.

Versatile cuts

The universal fence can be rotated by 180° for mitre and double-mitre cuts. The saw blade can be inclined from -1.5° to 46.5°; ideal for undercutting.

- The first mobile professional saw with the functions and advantages of a crosscut and mitre saw, a flush-mounted circular saw and a table saw
- Three machines in one mitre saw, flush-mounted logging saw and table saw
- Available as a complete set for performing a wide range of work to a high quality
- Quick assembly of the delivered accessories
- Mobile due to low weight
- Motor with overload protection and soft start technology
- Reversible from mitre saw to table saw function in seconds

- High quality, swivelling universal guide adjustable on all sides of the machine table for mitre and parallel cutting
- Infinitely swivel and height adjustable saw blade
- Integrated, foldable stand with level adjustment for safety
- Precise workpiece support made of aluminium profiles
- Side part made of solid steel sheet
- For single phase alternating current

Mitre guide For precise cross cuts and angular cuts Infinitely variable, both sides adjustable, 90°-45°	0910059963
 Mitre guide For precise cross cuts and angular cuts With workpiece bearing made of aluminium Infinitely variable, both sides adjustable, 90°-45° 	0910008048

Base weight: 100 kg	
Height: 640 - 1.015 mm	
Roller stand RS 420 W For supporting long workp	0910053361 ieces
when sawing, moulding/roplaning and drilling	outing,
Sturdy, height-adjustable a	and foldable
With smooth-rolling chromic ball bearings	ım-plated
Adjustable ball bearing gib Also permits lateral moveme	unto
Ideal for panel material,	ents
round or square workpieces	
Width: 420 mm	
Base weight: 100 kg Height: 640 - 1.015 mm	
Push block For the lateral guiding	0910057200
• For the lateral guiding	

Width: 520 mm

of the workpiece

Chip and dust extraction units

	Order no.
Chip and dust extraction unit For a cleaner work environment and an unobstructed view of the workpiece you want to cut For connecting to a chip and dust extraction system	0910017608
 With this accessory, the machine is dust-proof Extraction nozzle Ø: 100 mm Suitable for: PK 200 	
Chip and dust extraction unit For a cleaner work environment and an unobstructed view of the workpiece you want to cut For connecting to a chip and dust extraction system	0910014374
 With this accessory, the machine is dust-proof Extraction nozzle Ø: 100 mm Suitable for: PK 250 until 1993, PK 255 	

- Top cutting results thanks to teeth ground on all sides and high accuracy of flatness and concentric running
- Tungsten carbide blades: long tool life thanks to use of unmixed carbide
- Can be reground repeatedly
- Made in Germany

Material	Dimensions mm	Tooth pitch	Version	Order no.
For PK 200				
Tungsten carbide	210 x 2,4 x 30	30	Alternately bevel- ground tips	6.28036
Tungsten carbide	210 x 2,4 x 30	42	Alternately bevel- ground tips	6.28039
Tungsten carbide	210 x 2,4 x 30	64	Alternately bevel- ground tips	6.28081
Tungsten carbide	210 x 2,4 x 30	40	Alternately bevel- ground tips, 3°	6.28037
For PK 255				
Tungsten carbide	250 x 2,8 x 30	24	Alternately bevel- ground tips	6.28012
Tungsten carbide	250 x 2,8 x 30	34	Alternately bevel- ground tips, Combo secondary hole holder	6.28045
Tungsten carbide	250 x 2,8 x 30	42	Alternately bevel- ground tips, Combo secondary hole holder	6.28046
Tungsten carbide	250 x 2,8 x 30	60	Alternately bevel- ground tips, Combo secondary hole holder	6.28049
Tungsten carbide	250 x 3,2 x 30	60	Alternately bevel- ground tips, Combo secondary hole holder	6.28050
Tungsten carbide	250 x 2,8 x 30	80	Alternately bevel- ground tips, Combo secondary hole holder	6.28087
Tungsten carbide	250 x 2,8 x 30	80	Flat tooth/ trapezoidal tooth, 5° negative	6.28088

EQUIPMENT FEATURES

- Demountable for large range of use
- Powerful universal motor
- Parallel guide/ripping fence with magnifier and Nonius fine adjustment, double eccentric clamp
- With table extension in length and width for larger workpieces
- Inclinable saw blade
- Large and anodised aluminium table-top
- Machine housing made of powder-coated, torsion-resistant sheet steel
- Dustproof according to TRGS 553 by FPH
- Extensive range of accessories
- For three phase current

	Precision circular saw PK 300 - 4.2 DNB
Comparative device characteristics	
Dimensions L x W x H	1.480 x 1.430 x 1.050 mm
Table size	710 x 900 mm
Cutting height 90/45°	104 mm/70 mm
Rated load speed	3.800 /min
Cutting speed	50 m/s
Maximum cutting width	
 With parallel guide/ripping fence 	340 mm
Saw blade	Ø 300 x 30 mm
Saw blade swivel range	0 - 45 °
Rated input power	4,2 kW
Output power	3 kW
Weight	90 kg
Standard equipment	Carbide saw blade with
	alternately bevel-ground tooth
	(28 teeth), stand, parallel guide/
	ripping fence with magnifier,
	table length extension, table
	length extension, chip and dust
	extraction unit, chip extraction
	connections, push stick
Туре	PK 300 - 4.2 DNB
Order no.	0103004217
	0103003138 ^(B) 230 V

Accessories

Cabinet base

- For ideal working height and secure base
- Robust, powder-coated sheet steel construction

Working height: 920 mm

Wheel set

 For the easy transportation of the machine mounted on the cabinet base

Sliding table short

- Enables exact cuts, even on larger workpieces
- Easy fastening of the sliding table with snap locks
- Guide profile made of thickwalled aluminium and galvanised round steels
- Guided over four rollers with ball bearings

Guide with mm division, extractable up to 2,600 mm (telescope profile) with adjustable fence pointer Cutting width 90°/45°: 610 mm/1.010 mm Table size: 280 x 525 mm Overall length: 1.500 mm Base weight: 25 kg

Sliding table long

- Enables exact cuts, even on larger workpieces
- Easy fastening of the sliding table with snap locks
- Guide profile made of thick-walled aluminium and galvanised round steels with height-adjustable support leg
- Guided over four rollers with ball bearings

Guide with mm division, extractable up to 2,600 mm (telescope profile) with adjustable fence pointer Cutting width 90°/45°: 1.260 mm/1.660 mm Table size: 280 x 525 mm Overall length: 2.300 mm Base weight: 35 kg

ble length extension

- The table extension increases the supporting surface (same width as the work bench), making it ideal for cutting long pieces of wood
- Collapsible without having to use tools ength: 710 mm Vidth: 570 mm

Push block

Order no.

0910003330

0910003305

0910008048

	Order no.
Push block ■ For the lateral guiding of the workpiece	0910057200

Spray for maintenance and care

	Order no.
Spray for maintenance and care Ideal for maintenance and care of wood processing machines	0911018691
 Contains silicon, prevents saw dust from sticking, e.g. to threaded rods or sliding bearings 	
 Increases the sliding quality of the workpieces on the machine table High cleaning capacity 	

able width extension

- The table width extension increases the supporting surface; ideal for cutting boards
- Enables cuts on length guide up to 1,010 mm width
- Collapsible without having to use tools

Length: 900 mm Width: 710 mm

Mitre guide

- For precise cross cuts and angular cuts
- aluminium
- Infinitely variable, both sides adjustable, 90°-45°

PK 300: can be used on the right and left

- With workpiece bearing made of

of the saw blade

Roller stands

- For supporting long workpieces when sawing, moulding/routing, planing and drilling
- Sturdy, height-adjustable and foldable

	Order no.
Roller stand RS 420 With smooth-rolling special steel rollers wi a high load capacity Width: 400 mm Base weight: 100 kg Height: 640 - 1.015 mm	
Roller stand RS 420 G With smooth-rolling chromium-plated ball bearings Also permits lateral m Ideal for panel materia Width: 520 mm Base weight: 100 kg Height: 640 - 1.015 mm	ovements al
Roller stand RS 420 W With smooth-rolling chromium-plated ball Adjustable ball bearin Also permits lateral m Ideal for panel materia round or square work Width: 420 mm	bearings g gib ovements al,
